Do you import low acid canned food in compliance with 21 CFR part 113?

(see 21 CFR 1.502(b))

YES

You do not need an FSVP with respect to microbiological hazards for that food. Instead, you must verify and document that the food was produced in accordance with 21 CFR part 113. With respect to all matters that are not controlled by part 113, you must have an FSVP.

NO

Are you a receiving facility in compliance with requirements in the Preventive Controls for Human Food or Preventive Controls for Animal food related to implementation of preventive controls for the hazards in the food or supply-chain programs, or are you not required to implement a preventive control under those rules in certain specified circumstances?

Are you a very small importer?

(see 21 CFR 1.500 and 1.512)

YES

You are subject to modified FSVP requirements. An example of modified requirements for certain importers is that they would not have to conduct hazard analyses and would be able to verify their foreign suppliers by obtaining written assurances of compliance.
