SQF Food Safety Certification Overview

Getting Started

Learn about SQF certification

There are many options for learning about the SQF Code. Start by downloading the right code that fits your industry.

Then look into one of the following:

- **Online Course** - via Zosi
- **Instructor Led Courses** - via licensed SQF Training Centers
- **Learn At Your Pace** - via downloading the SQF Code

Why Choose SQF

You don't have to undertake the certification process alone.

Food operators worldwide are streamlining their processes and growing their businesses with SQF certification. Our process is designed to meet industry, customer, and regulatory requirements for all sectors of the food supply chain.

Through SQF certification, you can:

- Build confidence in your retailers,
- Protect your brand, and
- Expand your reach through strong trading partnerships.

Who Should Invest

A food safety solution for every facility.

The SQF Program is written based on sound scientific principles and the highest quality standards applied across all industry sectors. Food facilities in the global supply chain, from farms and orchards to retail and wholesale, are eligible for certification.

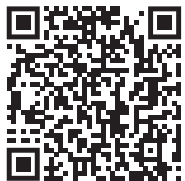

See all industry scopes covered in the SQF Program:

What You Gain

When you invest in SQF certification, you also gain access to:

- 1,000s of practitioners and professionals in the SQF community,
- A network for solution and benchmarking discussions,
- Access to the annual SQF Conference,
- A flexible food safety management system designed to work with your current operations, and
- Hours of resources and training content to ensure audit success.

One world. One standard.
